THE NEW MAMMOTH EVERBEARING STREAMLINER STRAWBERRY

**Honey Sweet Flavor . . . Low Acid Content
Requires Little Sugar**

This new everbearer originated in the mountains of Northeastern Oregon at an elevation of 3000 feet and is very hardy. The berries are extremely large and hold their size well throughout the season; conical, almost round in shape, attractive deep glossy red in color, both fresh and preserved, very sweet, requiring little sugar, delicious in flavor and highly aromatic, very firm, standing up better on the market than other everbearers, and remarkably productive.

It produces runners, although not as many as some varieties, and the runner plants yield a large crop of berries in the course of the season. Said to be the most disease-free plant known, patches four years old being in perfect condition, free of disease and in full production. The berries start ripening at the same time as the Marshall and continue until heavy freezing.

One large grower says the fruit of Streamliner is better than any other everbearer they are growing. If you want a top quality everbearing strawberry of surpassing merit, here is your opportunity. **The number we can offer at these prices is limited—SO ORDER TODAY!**

Prices Prepaid: 100, \$7.50; 1000, \$60.00.

GEMZATA EVERBEARING STRAWBERRY. This variety is considered second only to Streamliner by the above grower. It is so similar to Streamliner in size and shape that the above photo of Streamliner might well be of Gemzata. See description of Gemzata in catalog. **Prices Prepaid: 100, \$5.00; 1000, \$40.00.**

WAYZATA EVERBEARING STRAWBERRY. Some authorities and growers claim Rockhill and Wayzata are the same variety, but an experienced Oregon grower, under date of Sept. 20, said: "There is a difference between Rockhill and Wayzata. The Wayzata puts out some runners where the true Rockhill has only a few if any. We are picking Wayzatas now and they are doing fine. Berry not quite as large as Rockhill and of different flavor. Wayzata sets a heavier crop of berries. It also has crown divisions."

Prices, Prepaid: 25, \$2.50; 100, \$8; 1000, \$60.

KLONDIKE STRAWBERRIES. Of the stock of Klondikes mentioned in catalog, only about 60,000 are left unsold. After they are all sold the price will be \$1 per 1000 higher on another stock while it lasts.

ROCKHILL EVERBEARING STRAWBERRY. The stock of these at prices quoted in catalog is sold out, and future orders will be at following prices, while stock lasts, subject to change:

Prices Prepaid, 100, \$12; 1000, \$75.

BRENTWOOD BERRY GARDENS

140 SOUTH CARMELINA AVENUE

LOS ANGELES 24, CALIFORNIA

Quotations subject to stock being sold; prices subject to change without notice.

Cherry Red Rhubarb (Everbearing)

This beautiful, red rhubarb originated in Los Angeles County and is a direct descendant of Burbank's Crimson Winter Rhubarb. It is of large size and very highly productive, producing a crop within a few months after planting and yielding several crops in a season. It does not go dormant like most sorts but is everbearing, producing the year around under favorable weather conditions, and a planting will last for years. It is so tender that it does not require peeling, is well flavored and less acid than some sorts and requires less sugar.

Winter, or everbearing, rhubarb has done well in Florida where we have sold thousands of plants in the past. One Florida grower has reported netting \$2000 on $\frac{1}{4}$ acre of a less productive strain of winter rhubarb than the Cherry variety, years ago. It has to be planted every fall in Florida as it does not seem able to live through the rainy summer there.

Prices: 10 prepaid, \$3; 100, F.O.B. here, \$12; 1000, F.O.B. here, \$100.

SUPER RHUBARB PIE. One cup sugar, large tablespoonful flour mixed with the sugar, butter the size of an English walnut, one egg. Mix all together, add two cups finely chopped rhubarb and bake in two crusts. (Two eggs can be used for three pies.) You will find this pie so delicious it will delight your palate. Do not peel this rhubarb as it does not require it.

TWO GOOD BERRIES

MARSHALL STRAWBERRY (OREGON BANNER, OREGON PLUM). These plants are very fine, large plants. See description in catalog.

Revised Prices: 100, Prepaid, \$2.50; 1000 F.O.B. here, \$16.

SODUS PURPLE RASPBERRY. This is an extremely large raspberry and ripens in July, later than most raspberries, thus extending the season. It has been found to do exceptionally well in California, and is unusually productive. Further description in catalog.

Revised Prices Prepaid: 10, \$2; 100, \$6.50; 1000, \$55.
